D.W. Davis Consulting delivers **Human-Centered AI Consulting, Education, and Implementation** that empowers entrepreneurs, small businesses, nonprofits, and public sector organizations to integrate AI in ways that save time, reduce costs, and expand capacity—without losing the human core of their work.

CORE COMPETENCIES

AI BUSINESS INTEGRATION CONSULTING

Customized AI adoption strategies that reduce costs, streamline workflows, and increase productivity for entrepreneurs and small businesses.

AI EDUCATION & COMMUNITY TRAINING

Accessible, plain-language AI literacy workshops for entrepreneurs, nonprofit leaders, and frontline professionals.

KEYNOTE SPEAKING & CONFERENCE FACILITATION

High-impact presentations on human-centered AI and responsible technology adoption for local, national, and international audiences.

AI-ENHANCED GRANT WRITING SUPPORT

Strategic consulting to help nonprofits and businesses leverage AI tools for grant research and proposal development.

ENTREPRENEUR-IN-RESIDENCE / AI ADVISING

Embedded advising for libraries, incubators, and business development programs integrating AI into growth strategy.

LEADERSHIP DEVELOPMENT & EMOTIONAL INTELLIGENCE

Training that builds resilience, self-leadership, and regulation—the human capacities needed in an AI-accelerated world.

DIFFERENTIATORS

HUMANITY FIRST

AI is a tool—never the work. Every engagement centers people, purpose, and outcomes that matter most.

PRACTITIONER CREDIBILITY

CPD-Certified AI Consultant and Microsoft-partnered Certified AI Facilitator with real-world implementation experience.

ACCESSIBLE AI LITERACY

Removes barriers for communities left out of tech—entrepreneurs, nonprofits, educators, and frontline workers.

PROPRIETARY FRAMEWORKS

PRESENCE™ and PEACE™ ground AI adoption in emotional intelligence, resilience, and sustainable human performance.

PAST PERFORMANCE

Richland Library AI Academy — Entrepreneur-in-Residence

SCOPE: AI integration advising for entrepreneurs through the Richland Library AI Academy, Columbia, SC.

IMPACT: Equipped entrepreneurs with practical AI tools to save time and build more efficient business systems.

Benedict College — International AI Conference Speaker

SCOPE: Featured speaker on responsible AI adoption, human-centered technology, and leadership in the age of AI.

IMPACT: Broadened AI awareness and ethical discourse among academic, business, and community leaders.

Summits, Conferences & Community Presentations

SCOPE: Featured presenter at AI summits and community education sessions statewide and nationally.

IMPACT: Advanced AI literacy and adoption strategies for hundreds of professionals across multiple sectors.

SC Dept. of Education — State Director, Health & Nutrition

SCOPE: Led 30+ professionals directing technology integration and leadership training for 800+ schools statewide.

IMPACT: Strengthened institutional capacity and modeled human-centered leadership at the state level.
